1. Documents listed in basic communication and attached hereto have been processed by Pacific MIRS. No information of value was found.

2. With Pacific MIRS acting as the agency for strategic exploitation of captured documents, the making of specific commitments to representatives of Chinese G-2 in the field risks depriving Pacific MIRS of valuable material. Therefore recommend future commitments be made on the basis of:

a. All documents destined for Chungking be processed by Pacific MIRS.

b. Documents of value to both the Chinese and ourselves, photostatic or microfilm copies be forwarded. In view of the longstanding Chinese dislike for copies documents, it would be well to explain the necessity for this expedient to them.

c. In any event, the most advantageous exchange of information by our M/A is desirable.

3. It is probable that this matter will be discussed in the forthcoming document conference and that specific recommendations will be made to A. C. of S., G-2, concerning captured document liaison with Allied nations.

R. L. HOPKINS,
Lt. Colonel, C. E.,
Deputy Chief, Military Branch.
